

I3DION Spatial

Design System Document (DSD)

Version 1.0

1. Design Philosophy

Design Goal

I3DION Spatial is an Industrial AR Catalog & Sales Visualization Platform.

The interface should communicate:

- Trust
- Professionalism
- Innovation
- Simplicity
- Enterprise Readiness

The design language should feel similar to:

- Notion (Clean)
 - Linear (Modern)
 - Stripe Dashboard (Professional)
 - Autodesk Products (Industrial)
-

2. Brand Identity

Product Name

I3DION Spatial

Brand Personality

- Professional
- Modern
- Industrial
- Technical
- Clean

Final Design Principle

Every component in I3DION Spatial must prioritize clarity, speed, and product visualization. The design system should maintain consistency across catalog creation, product management, QR experiences, AR visualization, and sales workflows while presenting a premium enterprise-grade appearance.
